## Objective

I am Deenathayalan, a MERN Stack Developer with good knowledge. I am interested in IT and everything in its orbit. I enjoy building everything from small business sites to rich interactive web apps. I am fascinated by web programming like developing apps and websites. I enjoy taking complex problems and turning them into simple and beautiful interface designs. I love spending time on fixing little details and optimizing web apps.

And also I love logic and structure of coding and always strive to write elegant and efficient code, whether it be HTML, CSS or JAVASCRIPT. Exceptionally creative and dependable front end developer with a good work ethic. Highly adept at conveying complex technical information to a variety of professional and lay audiences in a clear and understandable manner. I would offer my full commitment and be a pleasant and friendly addition to your team. As the saying goes- "Two heads are better than one". I am therefore currently looking for a job as a MERN Stack Developer
